1. Large numbers of new tanks have been arriving in the Caucasus lately. They are probably identical with those which reached Ksanka [sic], north of Tbilisi (Tiflis), toward the end of Nov 1953. Characteristics of these tanks are as follows:

Weight - 20 tons
Armament - 75 mm gun in central turret
Four 37 mm machine guns; one on each side, one forward, one rear
Motor - 12 cylinders, 350 hp.
Speed - Rather dubiously reported as 60 kilometers
Crew - Eight men
Tank has equipment for orientation, radio, telescope
Armor - 25 mm

2. Hundreds of new tanks, presumably like these, are reported. They are said to have been tried out with satisfactory results.
